Research Workshop
Dialogues between Asia and Europe: Educational Development and Resilience Building

30 March 2020 | 10:00-17:30
Venue: 83 Pall Mall, London, SW1Y 5ES, UK

Participants:
Delegations from the University of Bath (United Kingdom), Durham University (United Kingdom), Lingnan University (Hong Kong), and scholars from Hiroshima University (Japan), Tohuku University (Japan), Sun Yat Sen University (China), IOE (United Kingdom) and King's College (United Kingdom)

Date: March 30, 2020, 10:00-17:30
Venue: Room TBC, 83 Pall Mall, London, SW1Y 5ES, United Kingdom

Programme:
10:00-10:30  Registration, Coffee/Tea
10:30-11:00  Presentation from the CRECEA, University of Bath + Q & A
11:00-11:30  Presentation from Durham University + Q & A
11:30-12:00  Presentation from Lingnan University + Q & A
12:00-12:30  Presentation from other invited universities + Q & A
12:30-13:00  Participants choose the workshops for the afternoon session
13:00-14:00  Lunch break
14:00-16:00  Parallel workshops (with Coffee/tea)
16:00-17:00  Harvesting and idea sharing
17:00-17:30  Closing

Educational development and resilience building are two major themes on educational policymakers’, scholars’, and school practitioners’ agenda. This joint research workshop aims to enhance the mutual understanding and research collaboration led by the University of Bath
(UK), Durham University (UK), and Lingnan University (HK). Other invited institutions are warmly welcome to join the research network.

This one-day research workshop comprises two sessions. The morning session entails four presentations from the delegations, introducing the ongoing and future research projects, identifying research and policy questions and any forthcoming funding opportunities.

We will then identify 3 or 4 projects for further development. The afternoon session consists of 3-4 project-based workshops where we begin to develop the ideas towards concrete bidding plans. Participants can join the workshops that match their research interests and start the discussion of composing research proposals and funding bids.
